- Offered **support** and **mentorship** to junior analysts, contributing to a **collaborative team environment** and helping in their professional growth

Projects

Little Moments

Full stack web application created after the bootcamp to implement new skills such as TypeScript and Bootstrap. Users can create CRUD operations on albums and events within the albums

Technologies used: **TypeScript** | **ReactJS** | **NodeJS** | **ExpressJS** | **Bootstrap** | **CSS3** | **MongoDB** | **Rest API**

I Do Planner

Full stack web application as a final project of the Bootcamp (pair programming). Users can plan a wedding using different tools (CRUD)

Technologies used: **JavaScript** | **ReactJS** | **NodeJS** | **ExpressJS** | **DaisyUI** | **CSS3** | **MongoDB** | **Rest API**

HappenHub

Web application to help users organize meetings

Technologies used: **JavaScript** | **ReactJS** | **NodeJS** | **CSS3** | **Rest API**

Beach Clean Up Game

Click game with increasing levels developed for the first project of the bootcamp

Technologies used: **JavaScript** | **HTML5** | **CSS3** | **OOP**
