SUMMARY

As a **Full Stack Developer** I will be able to use my problem-solving thinking by **creating overview** and **attention to detail**. Both **teamwork** and **independency** were key in my previous function, which resulted in **proactiveness**, **persistence** and **reliability**. With all my skills I am able to create **dynamic applications** and grab the **opportunity to grow**.

PROJECTS

I DO PLANNER

- **Full stack web application** where users can plan a wedding using different tools
- Final project Ironhack Bootcamp, pair-programming
- Technologies used: **JavaScript | React.js | Express.js | Node.js | HTML5 | CSS3 | DaisyUI | MongoDB | Axios | Rest API**

HAPPENHUB

- Application to help you organize meetings within a group
- Second project Ironhack Bootcamp, pair-programming
- Technologies used: **JavaScript | React.js | Rest API | Axios | Node.js | HTML5 | CSS3**

BEACH CLEAN UP GAME

- A reaction game with increasing levels where the user has to click one specific object, but should avoid clicking another object
- First project Ironhack Bootcamp, individually developed
- Technologies used: **JavaScript | HTML5 | CSS3 | OOP**

PROFESSIONAL EXPERIENCE
